

NextGen HIV Research: Tackling Critical Issues Head-On

SAVE THE DATE

Join the San Diego Center for AIDS Research on September 20 for a full-day symposium showcasing AI technology and discoveries that are revolutionizing the study, treatment, and prevention of HIV worldwide!

CALL FOR ABSTRACTS

Abstracts are welcome on all aspects of HIV including clinical, behavioral, public health, or laboratory research.

Preference will be given to submissions from emerging investigators and/or research supported by SD CFAR core services or grant funding. See cfar.ucsd.edu for full details.

RESEARCH DAY HIGHLIGHTS

- Advancing HIV research and public health through AI
- JEDI panel featuring underrepresented minority scholars
- Basic / Translational Science panel
- How Developmental Grants can lead to publications and R-series grants
- And MORE to be announced soon!

Continental breakfast and lunch provided.

RISING STAR AWARD

The best abstract by an emerging investigator will be selected for a featured presentation at Research Day. The author will also receive a \$200 gift card to the UC San Diego Bookstore!

Abstracts Due July 15, 2024

Presenters Notified August 23, 2024

Visit cfar.ucsd.edu for details.
