

## **Opening: Nurse Practitioner Position**

### **About the opportunity**

The UC San Diego (UCSD) [Division of Infectious Diseases and Global Public Health](#) is seeking a Nurse Practitioner to fill a part-time position with the [iStrive Research Lab](#). The Nurse Practitioner will work in a research capacity on [The THRIVE Study](#), a multi-disciplinary study that seeks to understand alterations to the body's immune response that may increase susceptibility to HIV following sexual assault. The study is located in the [AntiViral Research Center](#) at the University of California San Diego Medical Center in the Hillcrest neighborhood of San Diego.

### **Eligibility:**

- Current Nurse Practitioner (NP) Specialty Certification from one of the following Nursing Boards: AANP, ANCC, NCC, PNCB, AACN and State of California Nurse Practitioner Furnishing Number
- Demonstrated experience working with adult women and adolescent girls in a reproductive health capacity
- Demonstrated experience performing forensic exams on recent survivors of sexual violence
- Demonstrated experience performing vaginal/cervical exams
- Willingness to work with high-risk, marginalized, and vulnerable populations, including recent survivors of rape
- Flexible work hours, including some evenings and weekend

### **Applicants must be able to:**

- Dedicate up to 5 hours/week to working on high-caliber, multi-disciplinary research
- Work in a trauma-informed manner with adolescent girls as young as 14 years old
- Work in a trauma-informed manner with recent survivors of sexual violence

For a full job description, please contact the study's Project Coordinator Kate Anderson at [k4anderson@ucsd.edu](mailto:k4anderson@ucsd.edu).

### **Apply:**

To apply, please send a cover letter and resume/CV to Kate Anderson at [k4anderson@ucsd.edu](mailto:k4anderson@ucsd.edu).
